

Dear sir / madam,

We provide interns for business houses in Bengaluru, mainly MSMEs in the field of Business Development and other services. We bridge the gap between the business houses who have a demand for interns and the interns seeking out for opportunities to earn while they learn. We have placed 150+ interns in 40+ MSMEs and other firms, within a span of 1 year.

As a result of increasing demand for Full-Time Business Development Executives by most of our clients, we have shifted our focus on providing Full Time Job placements in Bengaluru.

The process of this initiative will begin with an Orientation conducted by our Operations Head in your esteemed institution.

Interns' Factory will also provide Training on Work & Professional Ethics, Public Speaking, Business Development Techniques, Grooming & Etiquettes, Social Media Skills and Interview Training, for a period of 1 month in Rajarajeshwari Nagar, Bengaluru.

The candidates will also be provided with Accommodation & Food for the duration for their training in Bengaluru.

Looking forward to connect with your esteemed institution to take this initiative forward which will benefit the students.

For INTERNS' FACTORY
